Profile

Carson is a Brooklyn-based creative and enthusiastic startup polymath. He is passionate about web development and creates beautiful, functional applications that end users love. Carson offers innovative approaches to problem solving and a willingness to take risks in his work.

Technical Skills

Languages: JavaScript, CSS, SQL, Ruby, HTML
Frameworks: Ruby on Rails, Express JS, Sinatra
Other skills: Node.js, PostgreSQL, Mustache, jQuery, JIRA, Git

Web Development Experience

GENERAL ASSEMBLY   10/16 – 01/17
Portfolio
This portfolio is responsive and displays on a single page that can be navigated by scrolling or links on the fixed top navbar. It contains samples of other work in an easily accessible format and social media links.
Technologies: Bootstrap, Express JS, jQuery, Pug, Heroku, HTML, CSS
https://carsonmhyde.herokuapp.com

Whitty
Whitty is a CRUD app that allows you to read poems by Whitman and save your analyses to the app's database for future reference. It calls on an external API (http://poetrydb.org) to return user poem queries.
Technologies: Bootstrap, Express JS, jQuery, Ajax, Mustache, PostgreSQL, Heroku, HTML, CSS
https://whitty.herokuapp.com

Furry Slaughter: In the Chamber of Rodents
On start, a timer ticks down from 60 and rat images appear at random in specified, unmarked locations. Points are awarded on successful clicks. You win if you can score more than 30 points in a minute.
Technologies: HTML, Javascript, jQuery, CSS, GitHub Pages
